

How PLAYGROUP WA CAN SUPPORT LOCAL GOVERNMENT

Playgroup WA supports Local Governments by:

- Providing an online register of playgroup locations, contact details and session availability for playgroups across the state
- Advising playgroup-specific requirements when developing/relocating local facilities
- Mediating issues between playgroups and Local Government
- Providing support to playgroups applying for funding/grants from various sources and acting as an auspice for Local Government grants to unincorporated member playgroups
- Consulting on the development of playgroup programs to best fit local community needs
- Providing data on local community playgroup participation rates
- Developing and establishing new playgroups (i.e., sourcing venues and planning playgroup sessions and offering activity ideas)
